WORK EXPERIENCE

Frontend Developer - FusionFormad **April 2026-June 2026**
Freelance Remote

- Developed and launched a production-ready architecture website showcasing 20+ architectural projects, services, and a careers application flow, strengthening the client's digital presence and portfolio presentation.
- Resolved Vercel SPA routing and deployment issues, ensuring reliable production releases and resulting in a contract extension for ongoing maintenance and updates.
- Reduced LCP from 6.0s to 0.5s and improved Lighthouse performance from 70 to 95 through lazy loading and asset optimization, while adding project filtering and scroll animations.

Fronted Developer - Makh Horizon **June 2026-August 2026**
Freelance Remote

- Developed and launched a B2B website for an international trading and business solutions company, showcasing products and global quality assurance to prospective business partners.
- Built a partnership and business inquiry workflow enabling companies to submit partnership requests and business requirements, supporting the client's lead generation and global business development efforts.
- Integrated Google Analytics 4 (GA4) to track website traffic, user behavior, and inquiry interactions, providing data-driven insights into engagement and partnership activity.

EDUCATION

Bachelor in Computer Science **June 2024**
MTI University Cairo, Egypt

Bootcamp in Full Stack web Development **Nov 2025**
Information Technology Institute Cairo, Egypt

PROJECTS

Clinical Care Management System (ITI Project) **Nov 2025**
React, JavaScript, Node.js, REST APIs

- Architected a role-based healthcare platform supporting 3 user types—admin, doctor, and patient with protected routing and session-based authentication.
- Integrated an AI-powered symptom analyzer via REST APIs, handling async state, loading states, and error boundaries.
- Owned the frontend architecture, including reusable components, API integration, responsive layouts, and technical/UX decisions.

E-commerce Web Application **Sep 2025**
React, JavaScript, Tailwind

- Developed a responsive e-commerce application with product browsing, filtering, cart management, and checkout functionality.
- Integrated REST APIs for dynamic product data and implemented state management for cart and user interactions.
